SAFETY METER HOURS: 52,791.50

ROCKY MOUNTAIN SIGNING SAFETY FIRST NEWSLETTER

Let's keep RMS #1 in Safety for 2011

- Know Safety, No injury. No Safety, Know Injury.
- Safety never takes a holiday.
- When you gamble on Safety—you bet your life.
- Personal protective equipment is self defense.
- Be alert accidents hurt.
- Never turn your back to traffic.
- Always have an escape route.
- Never use an IPOD or music device when flagging.
- Never use your cell phone, text message or check your email while flagging.
- Never sit down, lean on drums or barricades and never take a nap.
- Let your supervisor or Pat Tryon, Safety officer know of any unsafe issues.
- Smile and keep hydrated.

RMS HIGHLIGHTS

DECEMBER PERFECT ATTENDANCE: TEDDY LEWIS

DECEMBER SAFETY AWARD: MARCHALLE HAYNES

RMS 2011 Team Safety Contract

I acknowledge that my number one priority, as an employee of Rocky Mountain Signing Co., Inc., is my personal safety and well being for those who work for, with and/or around me.

I will always wear my PPE on the jobsite—Hard hat, class 3 vest with sleeves, retro reflective pants, steel toed boots, gloves, safety glasses and my reflective paddle. I will replace my PPE if the items no longer meet the required standards or are not reflective.

I commit myself to the goal of zero injuries and I agree that all accidents are preventable.

I accept that I have the responsibility not to tolerate unsafe acts or conditions and never to work near an unsafe situation. The only way to perform work is the safe way.

I recognize that the company provides me with the authority to correct unsafe acts and/or unsafe conditions.

I am prepared to be accountable for my individual safety performance or the safety performance of those I supervise.

I will immediately report all injuries to my supervisor no matter how slight they may seem.

I will not operate electronic devices while operating a company vehicle.

I will maintain all equipment assigned to me in a professional manner by keeping it clean inside and out and by making sure it is always in good working condition. I will report any safety or maintenance issues immediately. I will notify the RMS office of any routine maintenance that is required.
